Daily Reporter

Keith,

Please run the following advertisement in the Daily Reporter one (1) time only.

> The Milwaukee County Department of Administrative Services (DAS) is requesting a proposal to provide professional engineering services for the planning and preliminary design related to the reconstruction of 11 acres of paved surfaces at the McKinley Marina in the City of Milwaukee using best management practices to address the unique water pollution challenges of an active marina. The project area consists of boat launches, boat washes, dry dock storage, boat maintenance areas, vehicle parking, and pedestrian areas.
