Comprehensive Facilities Plan - Answers to Questions about the Proposer Meeting

1. The meeting date and time you were given cannot be changed. This is the proposer's opportunity to present information to the committee. Should the proposer choose not to participate, it will not be reflected in their score; however, any additional information will not be considered.

2. Every team that submitted a proposal has been invited to meet with the County's review panel.

3. The review panel includes representatives of the departments that will be involved with the planning process.

4. The review panel has allotted 30 minutes to meet with each team. A proposer may present its proposal to the panel no longer than 15 minutes, with the remaining 15 minutes for questions and answers. Otherwise, the 30 minutes will be used for questions and answers.
