Behavioral Health Vs. Mental Health

- Are we just treating the symptoms of mental Health/ Trauma or giving people the care they need?
- Stigma/ Tabbo behind using the ~~[illegible]~~ word Behavioral?

COALITION FOR A PEOPLE'S SHERIFF RESPONDS TO SCHMIDT BUDGET REQUEST

Coalition Releases First Statement Following August Primary

MILWAUKEE--As the County Executive kicks off Budget Open Houses throughout the county, the Coalition for a People's Sheriff released the following statement in response to outgoing Sheriff Richard Schmidt's 2019 Budget Request:

On August 14th, Earnell Lucas was overwhelmingly chosen by Milwaukee voters, ousting Interim Sheriff Richard Schmidt. Now, the Milwaukee County Executive must, in the best interests of the residents of Milwaukee County, determine the budget of the sheriff's department, as overseen by lame duck leadership.

"We, the Coalition for a People's Sheriff, believe that a county's budget reveals its priorities and that elections should have consequences," **said Ryeshia Farmer, organizer for the Coalition for a People's Sheriff.** "Last month, the people of Milwaukee County voted in droves for a clean break with the administration of former Milwaukee County Sheriff David Clarke. Now, County Executive Chris Abele has the opportunity to heed the will of the voters by enacting a budget that meets the accountability, transparency, and best practices not seen under Sheriff David Clarke."

Specifically, the coalition seeks to understand why both **staffing costs** and **overtime costs** are rising at the same time according to Schmidt's budget request. In addition, why are the **administrative expenditures** skyrocketing, up from $855,003 in 2016 to $593,808 in 2017 to $1,911,326 in 2018 to requesting $2,800,468? Is the turnover in the department leading to higher costs as well? What are the causes of turnover, and is that related to the forced overtime of employees?

Additionally, the coalition highlights the following issues:

- **Body Cameras:** We are at a decision point for body cameras in the Milwaukee County Sheriff's Department. As the trial program is set to end next year, we strongly recommend that this program be expanded to every division in the department and made permanent.
- **Training:** Recent events have shown just how necessary it is to train sheriff's deputies on proper procedure and on the department's jurisdiction. Regarding the training components of Sheriff Schmidt's budget request, how much on-the-job training do new deputies receive? What determines if a long-term deputy is qualified to provide that on the job training? And how much of the budget goes towards that? Also, what falls under the on-the-job training?
- **Racial Profiling:** Given past practices of racial profiling and recent events involving the Sheriff's office, how are the saturation patrols prioritized and carried out, and how is the sheriff's department ensuring against racial profiling?
- **Mental Healthcare for Incarcerated Persons:** The budget mentions that four captains will be assigned to the County Jail as wellness coordinators in order to improve service to inmates with mental health needs. What are their qualifications on mental health? And their qualifications regarding mental healthcare specifically for marginalized individuals?

"We urge the County Executive to attain answers to these questions, and to fight for a budget in line with the wishes of the people of Milwaukee -- increased training and an end to racial profiling, body cameras for law enforcement, increased mental health and healthcare for incarcerated people, and spending that prioritizes true public safety and wellness for all," **said Ryeshia Farmer, organizer for the Coalition for a People's Sheriff.**

Hello, I don't envy your job. Trying to balance a budget that is facing shortfalls every year must be incredibly stressful.

We need more State Revenue to fund our County.

We need to make that happen by voting & calling our State legistators.

I really hope we can get the tax referendum that we previously voted for the Milwaukee County Parks. 6% is not enough for the parks to sustain themselves

Thank You
Anne
