Contracts, Amended November 6, 1997)

I. PROJECT DESCRIPTION

Project No.: A042-06415

Project Location: General Mitchell International Airport

The new inbound baggage handling system will involve the complete removal and replacement of five inbound slope plate claim carousels. Each claim carousel will share a common input and feed conveyor line. The new inbound system will be required to coordinate with the Baggage Information Display System (BIDS) to be constructed as part of the general construction of the building. Overall construction phasing plan for the inbound system will be developed by the general contractor for the Baggage Claim Building Remodeling project, and approved by the owner.
