Re: Addendum Number 2 to Request for Proposal –  
Milwaukee County Courthouse Planning Program Statement

Ladies and Gentlemen:

The following is a response to a question sent related to the referenced RFP:

1. *Would supporting the cost estimating for the study preclude a construction management firm from participating in any forthcoming courthouse building projects? Would participating in the development of the Milwaukee County Courthouse Planning Program Statement preclude a design firm from participating in any forthcoming courthouse architectural/ engineering projects?*

**Participating in the development of the Milwaukee County Courthouse Planning Program Statement will not preclude an entity from participating in any forthcoming courthouse projects.**

Proposals are due by June 3, 2015.
