3. Current conditions
4. Need & wants
5. Project timetable
6. Questions
7. Tour of ARFF Facility

GMIA ARFF Firehouse Addition

Project Location

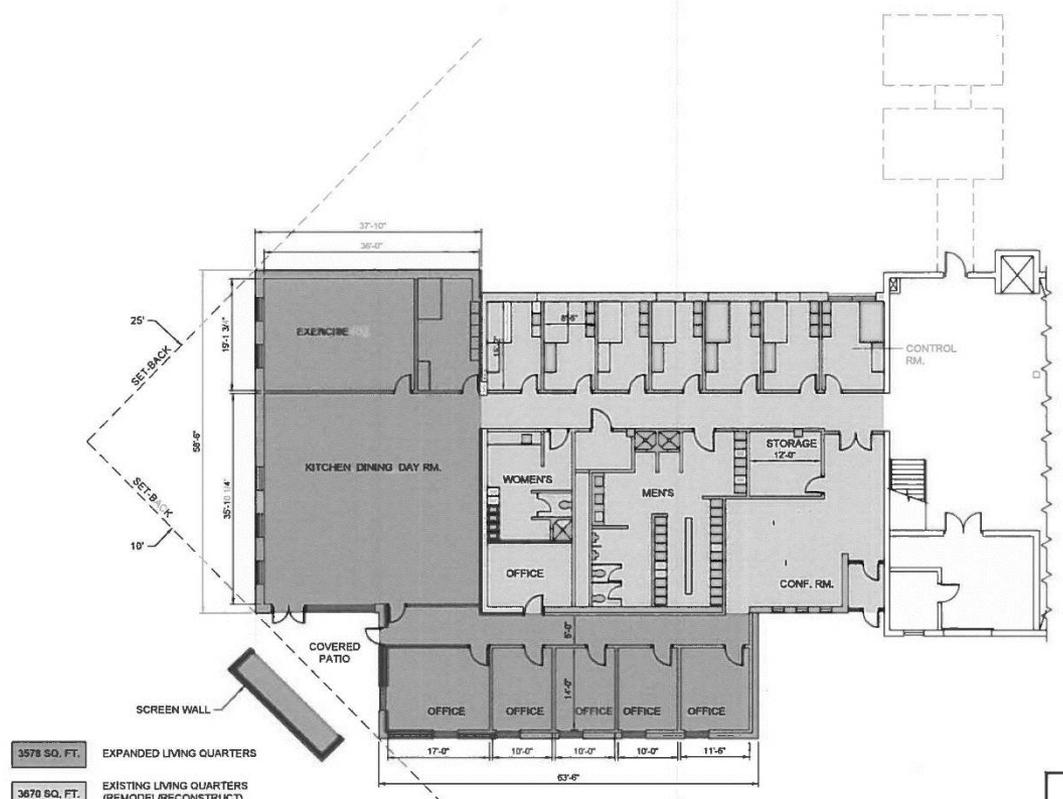

- Purpose of this project is bring the current ARFF facility up to FAA Advisory Circular 150/5210-15A *Aircraft Rescue and Firefighting (ARFF) Station Building Design*.
- GMIA ARFF Needs Analysis completed in 2015. This will serve as the basis of design.

Current Conditions

- Firehouse was built in late 1970's
- Additional equipment bay added in 1990's now totally six.
- Soundproof windows added in 2001
- Roof was redone in 2013
- Minor remodeling of shower stalls
- Ceiling tile replacement 2001

Building Deficiencies

- Additional office space is necessary.
Currently admin staff is housed at the MKE Business park.
- Update living quarters to meet current code and life-safety requirements
- Relocate exercise facility to first floor, make existing area into storage
- Add outside vehicle parking

	MILWAUKEE RESCUE STATION
	REVISED 1ST FLOOR PLAN ALTERNATE 2
	5/19/15

Other Considerations

- Temporary sleeping quarters
- DBE Participation 25%
- Communications room will remain in operation during construction
- Approximate building cost is \$1,750,000
- GMIA Engineering will assist in the 7460 submittal to FAA. Building Restriction lines will not be a problem.
- Additional soil borings will be taken for building addition
- Badging will be required.
