Project Name: GMIA-Baggage Screening Improvements
-Phase 2C
Checked Baggage Inspection System

Project Location: General Mitchell International Airport

Project Number: A044-09002-03

Contract Description:

The new outbound CBIS will be comprised of a single matrix approximately 20,000SF. The matrix will house (4) L3 eXaminer 3DX-6700 ES EDS Machines along with the baggage handling and sorting equipment. The matrix will accommodate all of the baggage for all airlines at General Mitchell International Airport.

All of the conveyors associated with the new CBIS will be new with the exception of the ticket counter input, ticket counter power turn conveyors and make-up units, which will be modified to operate with the new control system. The system will consist of (4) ticket counters that will merge into (1) mainline which will then feed the matrix located in a new building addition on the second floor of the Terminal. All bags entering the matrix will pass through a bag measuring array to determine whether the bag is Out-Of-Gauge. All Out-Of-Gauge baggage will be sent directly to the CBRA for processing. All in-gauge baggage will be processed by the matrix and proceed to the make-up area on a single clear mainline. Bags will pass through an automatic tag reader located on the clear mainline to be sorted to one of the (4) make-up units. Baggage will be diverted to a manual encode line if baggage information is not read by the automatic tag reader. Manual encoded baggage will be merged back on the clear mainline for baggage sortation.

Project Completion: October 2013

Pre-Bid Meeting: Tuesday, January 31, 2012, 9:00am, American Design Construction Trailer located north of ticketing, east end of Joseph M. Hutsteiner Drive, 5300 S. Howell Avenue, Milwaukee, WI. Vehicle parking in structure.
