Weekly Traffic Restrictions by Route/Destination – Week of April 22nd

Milwaukee Regional Medical Center remains accessible from all directions the week of April 22nd. Be alert for City of Wauwatosa Department of Public Works teams patching potholes on Watertown Plank Road between 87th and Hwy 45.

Watertown Plank Road will be closed east of the Hwy 100 intersection to just west of Innovation Drive beginning the evening of April 26 through the evening of April 28 to install water/storm sewer. [Detour information:](#)

- From the west: Take 116th north to North Avenue, to Hwy 45 south, to Watertown Plank road
- From the east: Take Hwy 45 north to North Avenue west, to 116th south, to Watertown Plank Road
- Watertown Plank Rd west to Innovation Dr. though Research Park to Hwy 100 via Research Drive will be permitted.

From the North:

- No restrictions in effect.

From the South:

- One travel lane and a parking lane will be closed on Glenview Avenue (84th Street) from I-94 to Bluemound Road until May 14th for conduit work.
- Throughout the week, there will be intermittent closures during the day of parking lanes and turning lanes at the intersection of Glenview Avenue and Bluemound Road for temporary signal installation. Only one lane will be closed at a time.
- Reminder: The northbound Hwy 100 entrance from I94 westbound is closed and will remain closed through the beginning of August. The detour from I94 westbound is via Hwy 45 north to Bluemound Road or Watertown Plank Road.

From the East:

- Glenview Avenue: The City of Wauwatosa will be conducting water main work along with AT&T and WE utility work which will include periodic lane closures on Glenview between Bluemound and Wisconsin from now until May.
- Throughout the week, there will be intermittent closures during the day of parking lanes and turning lanes at the intersection of Glenview Avenue and Bluemound Road for temporary signal installation. Only one lane will be closed at a time.

From the West:

- One lane will be closed on Bluemound Road eastbound from 92nd Street to 84th Street until May 14th for conduit work.

Reminder: New traffic patterns in effect until August:

- Bluemound Road: Two lanes of traffic in each direction have been relocated to the north side of Bluemound Road between 110th Street and 104th Street.
- Watertown Plank Road: Two lanes of traffic in each direction have been relocated to the south side of Watertown Plank Road from the railroad to Innovation Drive.

Research Park staff:

The DOT continues to monitor Research Park entry and exit traffic to identify area of improvements. Currently:

- Timing signal changes have been implemented and staff will continue to monitor the area.
- United HealthCare is being encouraged to utilize the new driveway onto Wisconsin Ave.
- Research Drive westbound now allows a right turn lane to Hwy100 NB.
- Innovation Drive northbound now allows dual right turns onto Watertown Plank Road.
- “Do Not Block Intersection” signs will be installed at Wisconsin Ave & the new driveway, Innovation Dr & Watertown Plank, and Watertown Plank & Fire Dept driveway.

Tosa Center:**Reminder:** New traffic patterns in effect until August:

- Bluemound Road: Two lanes of traffic in each direction have been relocated to the north side of Bluemound Road between 110th Street and 104th Street.
- Watertown Plank Road: Two lanes of traffic in each direction have been relocated to the south side of Watertown Plank Road from the railroad to Innovation Drive.
- The northbound Hwy 100 entrance from I94 westbound is closed and will remain closed through the beginning of August. The detour from I94 westbound is via Hwy 45 north to Bluemound Road.

A Look-Ahead:

June 23rd to Aug. 6th : Glenview between Wisconsin and Bluemound fully closed

July 20th – July 21st: Full closure of the intersection of Hwy 100 and Bluemound Road

August 1st – 10th: Full closure of Hwy 100 and Watertown Plank Road

Aug. 6th – 24th: Glenview and Wisconsin intersection fully closed
