

Planning for the Unique Evacuation and Shelter-in-Place Needs of People with Medical Dependencies during a Disaster Course (MGT-411)

April 30, 2013 • 8:00 AM - 4:30 PM • Milwaukee County Sheriff's Office, Franklin, WI

Course Overview

Planning for the Unique Evacuation and Shelter-in-Place Needs of People with Medical Dependencies during a Disaster

is designed for the management and planning-level officials of an organization and will help participants to:

- Define medical dependencies
- Identify people with medical dependencies
- Identify the needs of this population and learn how to best plan for them
- Develop or enhance emergency planning coalitions to include representatives from key community stakeholders
- Plan for evacuation or shelter-in-place of people with medical dependencies within your community
- Plan for and execute repatriation and recovery after a disaster

Toolkit

The participant will be provided with numerous tools to help them plan for people with medical dependencies. These tools include:

- Sample emergency operations plan (EOP) terminology, ensuring the inclusion of people with medical dependencies
- Evaluation tool for current emergency operations plans
- Hazard Vulnerability Analysis Action Matrix
- HSEEP tabletop exercise materials
 - Situation manual
 - Exercise evaluation guide
 - Exercise presentation

Prerequisites

There are no prerequisites for taking this course. However, FEMA ICS 100 and 700 certifications are encouraged.

Cost

This course is available at no cost.

This course is sponsored by FEMA Competitive Training Grant Program Award Number: 2008-GT-T8-K025.
