

DeltaVision

Vision Benefit Summary for the Employees of Milwaukee County

Your DeltaVision benefit plan is administered through EyeMed Vision Care, one of the nation's leading vision providers. This plan includes coverage for important preventive eye care, and discounts on laser vision correction.

The benefit summary below does not cover all plan details. Further information can be found in the Summary of Benefits within the DeltaVision Benefit Handbook. That document provides a thorough explanation of your vision plan, including any limitations or exclusions that might apply. If there are any discrepancies between information found here and the group contract, the group contract shall govern.

Accessing Your DeltaVision Benefit

Receiving your vision benefit is as easy as visiting your nearest EyeMed Vision Care network provider.

Inform your provider you are a DeltaVision member with EyeMed and give them your full name and date of birth. You may present your ID card but is not required to receive services.

How to Maximize Your DeltaVision Plan

- Use providers participating in the Select network; your benefit dollars will go farther at participating providers.
- Use your full benefit allowance. Frames and lenses (plastic or contact) each have an annual benefit allowance; the benefit allowance must be used on a single purchase day.
- Frequency of benefits; your benefit frequency is based on the date of service. For example, you'll be covered for another eye exam 12 months after your last eye exam.
- Participating providers offer 20% off retail price on items/materials not covered by the plan.
- Participating providers may offer promotional pricing on vision materials. You can partake in either the DeltaVision Network Benefit or the promotional price available, but not both. Your provider can help you to determine which is best for you. If you select the promotional pricing you can submit your expenses for Non-Network Reimbursement.
- Additional pairs of glasses, including prescription sunglasses, receive 40% off retail price.
- Participating providers offer 15% off retail price above and beyond the allowance amount for conventional contact lenses.
- Prescription sunglasses can be purchased with your benefit allowance for frames and plastic lenses.
- A 20% discount may be available on some brands of non-prescription sunglasses from participating providers – ask your vision provider.
- Your vision benefits include both a frame allowance and a lens allowance. The lens allowance will cover either eye glass lenses or contact lenses. If you purchase both glasses and contacts, you will be responsible for the cost of either the eye glass lens or the contacts, depending upon which was purchased first. Your provider can assist you on making the best choice to maximize your vision benefit.
- Premium progressive lenses are more costly than standard progressive lenses. Please discuss your costs for progressive lenses with your vision provider.
- Discounts do not apply for benefits provided by other group benefit plans.
- Members can purchase glasses online at www.glasses.com and contacts online at www.contactsdirect.com, and apply their in-network allowances. All other internet purchases are considered out-of-network.

Plan Limitations/Exclusions
