

The Work Number® is an automated service that accelerates credit decisions by providing verifiers—mortgage lenders, credit card companies, auto dealers and more—with proof of your employment or income, instantly and securely.

- a. View your free annual **Employee Data Report**, a record of your information contained on The Work Number database and a list of the verifiers who have accessed that information
- or -
- b. Generate a **Salary Key**, a single-use, six-digit code that you can provide to a verifier as consent to access your income information. *Note: In most cases, your consent is provided at the point of application for a service—when you sign a loan application or similar agreement—and a Salary Key is not required, but if you are asked to provide one, the below instructions will show you how.*
