

MILWAUKEE COUNTY'S MANAGEMENT DEVELOPMENT PROGRAM 2016

Management Matters!

Today's leaders work in an ever-changing environment facing new challenges daily. Frontline leaders are the lynchpin to organizational performance and business results, but only if they are provided with the right knowledge and skill sets to do the job. According to Forbes, a lack of leadership competence on the frontline is one big reason organizations struggle.

Our Program

The Milwaukee County **Management Development Certificate Program** offers a curriculum designed to build competence and confidence thereby strengthening business acumen. The program targets new or existing frontline leaders and will facilitate a greater understanding of:

- The Supervisor's role
- Managing employee engagement and performance
- Person to person communication
- Managing change and building trust

***“As we look into
the next century,
leaders will be
those who
empower
others.”
Bill Gates***

Effective managers help the pieces fit together!

Program Highlights:

- Ten half-day sessions conducted once per week over ten weeks
- Twenty-four (24) seats available for this opportunity.
- **Program applications will be accepted between August 15th and August 19th on a first-come, first-served basis.**
