#### *Preface*

The damage created by emergencies often disrupt the ability for citizens to provide their own basic health and human needs such as food, water, sanitation and housing/sheltering, and mental health. Government must be prepared to temporarily provide those services when they are needed.

### Likely Support Includes:

- Coordinate and lead federal resources, as required, to support local, tribal, and state governments and voluntary agencies (VOLAGs) in the performance of mass care, emergency assistance, housing, and health and human services missions.
- When directed by the President, ESF # 6 services and programs are implemented to assist individuals and households through four primary functions:
  - Mass Care: Includes sheltering, feeding operations, emergency first aid, bulk distribution of emergency items, and collecting and providing information on victims to family members.
  - Emergency Assistance: Assistance required by individuals, families, and their communities to ensure that immediate needs beyond the scope of the traditional “mass care” services provided at the local level are addressed. These services include: support to evacuations (including registration and tracking of evacuees); reunification of families; provision of aid and services to special needs populations; evacuation, sheltering, and other emergency services for household pets and services animals; support to specialized shelters; support to medical shelters; nonconventional shelter management; coordination of donated goods and services; and coordination of voluntary agency assistance.
  - Housing: Includes housing options such as rental assistance, repair, loan assistance, replacement, factory-built housing, semi-permanent and permanent construction, referrals, identification and provision of accessible housing, and access to other sources of housing assistance.
- Health & Human Services: Includes the implementation of disaster assistance programs to help disaster victims recover their non-housing losses, including programs to replace destroyed personal property, and help to obtain disaster loans, food stamps, crisis counseling, disaster unemployment, disaster legal services, support and services for special needs populations, and other Federal and State benefits.

Emergency Support Function (ESF) # 6

**Mass Care, Emergency Assistance, and  
Health & Human Services**

**PURPOSE.**

1. The purpose of this Emergency Support Function is to describe a coordination framework and serve as a guide to provide sheltering, mass care, emergency assistance and health and human services following an emergency or disaster. Identify key participants and resources to meet access and functional needs populations in mass care and sheltering operations.

**POLICIES.**

1. The provision of Mass Care, Housing, and Health & Human Services as a consequence of disasters is a fundamental responsibility of Milwaukee County government. Milwaukee County Office of Emergency Management will provide coordination management of all mass care, housing, and health and human services operations in the County through the EOC to ensure the population is effectively served. The primary coordination department for this ESF is Milwaukee County Department of Health & Human Services (DHHS).
2. The County's responsibility for mass care operations is in support the American Red Cross (ARC) in opening and maintaining shelter operations and provide coordination oversight. However, if ARC is unable to open and staff a shelter, it then becomes local government's responsibility to provide care and shelter function.
3. All government/volunteer/private resources will be utilized as necessary to coordinate effective public/private partnerships during an emergency.
4. Milwaukee County will coordinate mass care, housing, and health and human services efforts with local, state, and other non-governmental organizations (NGOs).
5. County designated shelters may be managed by the local government, ARC, or a combination of both entities.
6. Mass care, housing, and health and human services operations will begin as soon as possible following an emergency. Public and private facilities that will provide the best available protection for displaced people will be used as shelters and/or mass feeding facilities. The basic essential life support to be provided for the displaced population includes food, water, clothing, medical services, sanitation, lodging and communications. The Milwaukee County EOC determines which shelters, (generally community centers and public school buildings) will be opened for shelter use.
7. Milwaukee County will coordinate with state and federal agencies to facilitate the delivery of assistance programs to individuals, including the identification of appropriate site(s) for Disaster Assistance Center(s). (See

Annex IV: Recovery and Recovery Mitigation Actions, in this CEMP, for information on Individual Disaster Assistance Programs.)

8. The care of pets and other animal needs will be managed in accordance with ESF # 17 and the Domestic Cat, Dog and Small Animal Sheltering Plan.
9. NONDISCRIMINATION. No services will be denied on the basis of race, color, national origin, religion, sex, age, or disability, and no special treatment will be extended to any person or group in an emergency over and above what normally would be expected in the way of government services. The County's activities pursuant to the Federal /State Agreement for major emergency recovery will be carried out in accordance with Title 44, Code of Federal Regulations (CFR), Section 205.16.—Nondiscrimination. Federal disaster assistance is conditional on full compliance with this rule.
10. It is the policy of Milwaukee County to comply with the American Disabilities Act and its standards set forth in Title 41. CFR Section 101.19–6, to the extent permitted by fiscal constraints.
11. Milwaukee County has embraced the model of general shelters for all residents except incarcerated populations and those with extremely fragile medical conditions (i.e., separate shelters are not designated for those with access and functional needs).
12. Milwaukee County will secure cooperation of building owners for use of their property for shelter space.
13. Appropriate levels of health and emergency medical care services at shelters will be assessed at each shelter. Persons with access and functional needs or other special medical needs that exceed the capability of normal shelters will be sheltered in an appropriate medical facility.
14. Information about persons identified on shelter lists, casualty lists, hospital admission, etc, will be made available to family members to the extent allowable under confidentiality regulations.
15. Efforts will be made to coordinate among agencies providing information to minimize the number of inquiry points for families.
16. In the interest of public health and safety, the County will identify and attempt to meet the care and emergency needs of animals following emergencies.
17. Priorities will be directed toward animal care functions after human needs are met.
18. Personnel designated as on–scene responders or representatives to the EOC should make prior arrangements to ensure that their families are provided for in the event of an emergency, so to ensure a prompt, worry–free response and subsequent duty.

## 6A – Functional Needs

### *Preface*

In the wake of the disaster, many of the local resources will be unavailable due to damage or inaccessibility, or the local resources will not be sufficient to handle the demand to support sheltering and care of people with functional and access needs. This may require that significant amounts of resources and personnel will have to be brought into the area for assistance.

Functional and Access Needs service delivery for these individuals needs to be set up quickly.

## Functional Needs

**A. PURPOSE.**

1. To coordinate activities involved with the identification, registering, transportation, sheltering and care of people with functional needs before, during, and after a significant emergency.

**B. POLICIES.**

1. The County recognizes the need to undertake additional reasonable efforts to protect and assist people with functional needs at the time of emergencies and disasters, and especially during evacuations, sheltering and reentry.
2. Functional needs individuals are those who are in situations that would prohibit them from receiving, understanding and/or implementing governmental recommendations or orders regarding protective actions (evacuation and/or sheltering), and need support from others to effectively take protective actions. Functional needs individuals will include those who, due to physical or mental limitations, require assistance in implementing protective actions. It also includes individuals who lack the vehicles or structures to effectively implement recommendations or orders to evacuate or shelter-in-place, respectively.

### DEFINITION OF FUNCTIONAL POPULATION

Shelter operations can accommodate individuals who have a health condition that does not require institutionalization, but may require:

- Intermittent skilled observation, assessment, and/or maintenance;
- Assistance with activities of daily living (e.g., feeding, ambulating, self-medication or personal hygiene);
- Dependence on electricity;
- Receiving dialysis treatments.

Shelter operations cannot provide 24-hour skilled care and the following individuals will be referred to an appropriate health care facility:

- Persons who will require hospitalization or institutionalization;
- Residents of nursing homes, Assisted Living Facilities, Intermediate Care Facilities and facilities caring for the Developmentally Disabled or those with a mental illness;
- Persons who are bedridden;

- Women experiencing high-risk pregnancies who are within four weeks of estimated date of delivery or any pregnant woman in active labor;
- Persons who are in a sudden acute medical or emergency condition; and/or,
- An individual arriving at a Special Populations Shelter whose condition exceeds the capabilities of the shelter.

3. There are facilities and institutions within the County that house and care for functional needs individuals, which by Wisconsin law, must have plans, procedures and resources in place to implement protective actions for their patients during emergencies. The County will expect that such facilities within its jurisdiction have complied with this law and will not require, without advanced planning, County resources or personnel to complete protective actions for their patients. The County does recognize, however, that disaster-related damage to structures and transportation infrastructures could limit or prohibit implementation of facility emergency plans, and under such circumstances, County assistance could be necessary to minimize injury or loss of life.
4. **NONDISCRIMINATION.** No services will be denied on the basis of race, color, national origin, religion, sex, age, or disability, and no special treatment will be extended to any person or group in an emergency over and above what normally would be expected in the way of government services. The Milwaukee County activities pursuant to the Federal /State Agreement for major emergency recovery will be carried out in accordance with Title 44, Code of Federal Regulations (CFR), Section 205.16.—Nondiscrimination. Federal disaster assistance is conditional on full compliance with this rule.
5. It is the policy of Milwaukee County to comply with the American Disabilities Act and its standards set forth in Title 41. CFR Section 101.19–6, to the extent permitted by fiscal constraints.

*Attachment 1:***FORWARD ASSESSMENT SERVICE TEAM (FAST) SHELTER ASSESSMENT PROTOCOLS**

In 2010, FEMA provided “Guidance on Planning for Integration of Functional Needs Support Services in General Population Shelters”. This guidance is based on federal laws such as the Americans with Disabilities Act (ADA) of 1990, and various civil rights laws that mandate integration and equal opportunity for people with disabilities in general population shelters.

Providing appropriate emergency sheltering in Milwaukee County is a collaborative effort that must incorporate the resources of several local agencies and organizations.

Often, small-scale emergencies require short-term sheltering that can be coordinated and managed by a stand-alone community shelter, but protocols must be in place to respond to larger emergencies that will require efforts from multiple response agencies. Milwaukee County has developed plans to provide sheltering assistance to individuals with disabilities and other functional needs in the event of disaster or emergency which requires these individuals to evacuate their homes.

The following protocols will be utilized to conduct a systematic, organized, and efficient assessment of a community shelter to determine if Milwaukee County Functional Needs Emergency Shelter components shall be mobilized to assist in sheltering functions.

1. Establishment and selection of the Forward Assessment Service Team (FAST).
  - a. One representative and two alternates from each:
    - i. Milw. Co. Department on Aging
    - ii. Milw. Co. Disabilities Services
    - iii. Milw. Co. Behavioral Health Division
    - iv. Milw. Co. Emergency Management
    - v. Milw. Co. Family Care
    - vi. Milw. Co. Dept. of Health & Human Services Operations
  - b. **NOTE:** *the FAST team is to be established and updated during non-emergency times*
2. Notification of the FAST
  - a. Milwaukee County Emergency Management (EM) receives information about the status of community shelter openings during emergencies.
  - b. Community reception centers and/or shelters shall record the number of people arriving at the facility, as well as the needs of the people.
  - c. When a shelter manager identifies that the shelter may not have adequate resources to accommodate the needs of the people, a request shall be made to Emergency Management to deploy the FAST.
    - i. Potential triggers
      1. Insufficient number of staff and/or volunteers
      2. Lack of staff with specific skills
      3. Lack of proper supplies & equipment and means to obtain them.
      4. Inadequate shelter location and/or amenities
      5. Need for specific services
      6. Extended duration of event

3. Mobilization of the FAST
  - a. EM will activate a call to the specified FAST representatives to include:
    - i. Details about the shelter location
    - ii. Shelter manager contact information
    - iii. Other necessary information, such as the meeting time for the FAST.
  - b. FAST representatives will notify their respective division that the FAST has been deployed to perform an assessment, and will ask the division to begin preparations for a potential shelter deployment. The preparations will include:
    - i. Preparing staffing plans to cover regular responsibilities and provide assistance on site at the shelter as needed.
    - ii. Gathering supplies & materials that may be used at the shelter
    - iii. Activating the divisional contingency/COOP plan to maintain standard or altered office function
    - iv. If available, provide lists / files of clients from the affected area
  
4. Shelter Assessment
  - a. **NOTE:** *an onsite shelter visit with all FAST representatives present is the preferred method of performing the assessment. If this is not possible, the FAST team can perform an assessment by means of a conference call with the shelter manager.*
  - b. FAST representatives will meet as a team at the community shelter and meet with the shelter manager.
  - c. Shelter manager will provide the FAST team with the most recent shelter census numbers:
    - i. Number of people who registered at the shelter
    - ii. Number of individuals needing assistance or specialty items
    - iii. Number of volunteers & staff available
    - iv. Any other information, i.e., pets, service animals, etc.
  - d. Shelter manager will provide any additional information about client needs that resulted in the request for the FAST.
  - e. The FAST will conduct a needs assessment, evaluating the following:
    - i. Facility, equipment and supply needs:
      1. Does the shelter have unmet needs for specialty medical and adaptive care equipment and supplies?
      2. Does the shelter have sufficient electrical capacity to provide power to necessary medical and assistive equipment?
      3. Is the size of the facility appropriate to accommodate the anticipated number of clients?
    - ii. Human needs:
      1. Does the shelter staff have appropriate registration, intake, and triage protocols to properly assist the number of clients with medical or functional needs?
      2. Does the shelter have sufficient staff and volunteers to properly care for the needs of the shelter clients, including mental health needs?
      3. Is the facility that is being used as a shelter appropriate and accessible to people with disabilities or functional needs?

4. Will Milwaukee County program staff and representatives and Service Provider contract staff and representatives be useful to the shelter clients, providing information and/or care that would not otherwise be available?
- 
- f. FAST representatives will prepare a report and recommendation to present to Emergency Management, the County Executive, and the Director of Health and Human Services.  
The decision to mobilize the MCFNES will be made based upon the report and recommendation.
