

**Driveway access to the Parks Administration Building from Watertown Plank Road will be permanently closed on January 6th, 2014**

The driveway access to the the Milwaukee County Parks Administration Building from Watertown Plank Road **will be permanently closed on January 6th, 2014.**

Access to the Parks Administration building will be from Discovery Parkway, the north/south road running between Watertown Plank Road and Swan Boulevard. This change will require that vehicular traffic travels past UWM's Accelerator Building.

In addition to this permanent driveway closure, there will also be widespread closures of Watertown Plank Road between Discovery Parkway and new Swan Boulevard. Onramps and offramps from US 45 will also be closing for extended periods. The Wisconsin Department of Transportation (WDOT) has advised that during the next year of construction on Watertown Plank Road that it will be easiest to exit US 45 on either Wisconsin Avenue or North Avenue.
