

South Shore Park Site Investigation and Schematic Design

Site Overview

Newsletter #1 – May 2014

The Latest Information About Planning For The Future of South Shore Park

Future Meetings

Tentative Dates Include:

- Stakeholder Meeting #2: June
- Public Meeting: July

Project Overview

The purpose of this newsletter is to provide information for the South Shore Park Site Investigation and Schematic Design Project. This project is defined as an investigation and preliminary design of the parking lot and beach area of the Park with a special focus on storm water and beach quality. The project will look holistically at the entire South Shore Park and surrounding areas to consider effects on the detailed study area.

Detailed Study Area
