MILWAUKEE COUNTY

PARKS WITH PURPOSE

PARKS MASTER PLANNING

Why Participate in Parks Master Planning Workshops?

Information gathered will support the two major park planning efforts underway simultaneously: the 10-Year Parks System Master Plan and the 2050 Park & Open Space Plan.

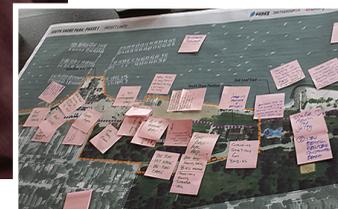

The 10-Year Parks Master Plan will provide recommendations for facilities, programs and services, maintenance and operation, and administration and management of the County park system.

The 2050 Park & Open Space Plan will address long-range considerations including the preservation of environmental corridors, conservation lands, and the recreational use of water bodies, and will make recommendations on the distribution of parks and recreational facilities throughout the County.

Learn more at countyparks.com select "Parks with Purpose" or call 414-257-PARK (7275)

Residents share their ideas at a community planning workshop.
