

Want to get involved in ongoing wildlife research in your Milwaukee County Parks?

Join us to learn more about **Milwaukee County Parks** **2016 Citizen-Science Programs!**

December 16th, 2015
6:00 p.m. to 8:00 p.m.
at
Wehr Nature Center

The Milwaukee County Parks Natural Areas Program will be hosting a general information session to recruit potential citizen-scientist volunteers for upcoming wildlife monitoring projects in 2016! No prior experience is necessary to participate in the programs, just a passion for learning and nature! Some of the potential wildlife monitoring projects that volunteers can sign-up to participate in include: Biking Birders (bird surveys along the Oak Leaf Trail), Turtle Nest Monitors, Nest Box Monitors (wood ducks, American kestrels, eastern bluebirds), wetland monitoring, wildlife camera monitoring, and Project Coyote Watch!

A general information session will take place on December 16th, from 6:00pm-8:00pm at Wehr Nature Center to showcase the programs and let people know how they can get involved! Registration must be received by December 14th.
