Lets team together and make sure everyone is warm this winter!!!

Mr. Dante T.W. Chestnut Sr. , Founder – CHILL Program stated We need your support in regards to this matter, over seven hundred people experiencing or at risk of homelessness are killed from hypothermia annually in the United States. About 44% percent of the nation's homeless are unsheltered.

From the urban streets of our populated cities to the remote backcountry of rural America, hypothermia remains a leading, critical and preventable cause of injury and death among those experiencing homelessness.

We would like to encourage residents who have any socks, scarves, gloves, boots, ear muffs, hats or caps that they would like to donate to the homeless during the cold and frigid winter season to put them inside our special CHILL buckets
