Update on Hoan Bridge Fatal Crash Investigation

Milwaukee, WI – The Milwaukee County Sheriff's Office Criminal Investigations Division (CID) began an investigation on October 4 into the fatal crash involving a disabled vehicle on I-794 on the Hoan Bridge. The man with the disabled vehicle was outside his car in a lane of traffic when it was struck from behind by another car.

The results on the blood tests came back on the driver of the striking vehicle and no drugs or alcohol were present. It had already been determined that there was no evidence of cell phone use. The state DOT crash reconstruction report showed the subject's speed to be at, or just below, the limit at the time of the crash.

The District Attorney's Office informed CID that no charges will be filed. A citation for Inattentive Driving will be issued.
