## ***NEWS RELEASE***

FOR IMMEDIATE RELEASE  
February 21, 2012

### **Milwaukee Sheriff's EOD Unit Removes Explosives from Home**

Milwaukee, WI – Milwaukee County Sheriff's Office Explosive Ordnance Disposal (EOD) Unit responded to a request from the Sheboygan County Sheriff's Department for assistance with explosives found in a home in Waldo yesterday morning. The resident had a prior history of making homemade explosives.

The Milwaukee Sheriff's EOD Unit assisted with evidence collection, identification and disposal of bulk explosive powders and commercial-grade fireworks. The EOD technicians described the materials found at the residence as extremely volatile. The explosive powders were transported to a remote quarry and rendered safe using standard countercharge procedures. The fireworks were removed from the residence for future destruction.

The Sheboygan County Sheriff's Department is conducting the investigation.
