## ***NEWS RELEASE***

FOR IMMEDIATE RELEASE  
March 23, 2012

### **Crash Investigation Update I-94 Northbound at Puetz Road**

Milwaukee, WI – Milwaukee County Sheriff's deputies closed northbound I-94 at Puetz Road yesterday from 12:20 a.m. through 10:40 a.m. as a result of a three-semi tractor-trailer truck / two-car crash. Information from the "black box" in one of the semi trucks is still needed for the investigation before the cause of the crash is determined.

The driver of one of the semi trucks was extricated from the cab of his truck and taken by Flight for Life to Froedtert Hospital. Wisconsin State Patrol troopers took measurements of the crash scene and inspected the vehicles due to the potential severity of his injuries. His injuries are reported to be non-life-threatening.

Motorists who were trapped at the location were turned around and led off the freeway by deputies. Sheriff's deputies conducted an investigation at the scene, interviewed those involved in the crash, and facilitated the unloading of the contents of two of the semis to other trucks brought to the site.

After the wreckage was transferred to flatbed trucks for towing, environmental clean up crews removed diesel fuel and oil spillage before the roadway could be reopened.
