## **SUPERVISOR ALEXANDER WEIGHS-IN ON COUNTY GOVERNMENT REFORM DISCUSSION**

**Milwaukee** – Milwaukee County Supervisor Deanna Alexander is supportive of reforming County government and issued the following statement:

“I campaigned on the concepts of ‘Servant Leadership’ and ‘Rebranding Milwaukee County.’ I believe that discussing reforms is the first step in providing better quality services, moving toward a decreased tax levy, making our government more efficient, and rebranding the County as a whole. I am firm in my values to be a faithful servant of the people and honest in my work. The public should know that there is room for reform and that I am interested in partaking in that discussion,” said Alexander.

“It is also important that the people are part of the discussion. I would like to have open dialogue with the citizens who elected me to office, in order to discuss a variety of opportunities for government reform, and to consider well-reasoned suggestions and methods of instituting change,” she continued.

Alexander is planning a public meeting in the 18th district on the topic of reforming Milwaukee County government and will soon release time and location details.
