NEIGHBORS TEACHING NEIGHBORS

**Celebrating the diversity of a community
by bringing together neighbors to share a wide
variety of talents and skills amongst each other.**

Neighbors Teaching Neighbors participants will learn new skills and form valuable relationships, helping to enrich the community where they live. Class topics are limited only by our collective imagination that reflect the backgrounds, experiences and talents of our community.

Our teachers are people like you – people who want to share their passions with other adults and who believe in community oriented exchange.

Our classrooms are located not only at Parklawn and John C. Cudahy YMCAs but can also be in local churches and community centers within our community.

FUTURE CLASS TOPICS MAY INCLUDE:

- » Cooking Classes
- » Home Improvement
- » Personal/Medical Care
- » Automobile Repair
- » Gardening
- » Parenting
