SUPERVISOR STAMPER CALLS FOR JUSTICE

Milwaukee – Supervisor Russell W. Stamper II issued the following statement regarding the death of Derek Williams:

“The recent decision of the revised ruling by the Medical Examiner warrants a federal criminal investigation. The death of the young man, Derek Williams, while in police custody is obvious unprofessionalism and clear misconduct by the police officers involved. In that regard, the video “speaks for itself.” The sight of the young man struggling to breathe and pleading for help while the officers ignore and disregard his torment are blatant human rights and civil rights violations. The officers responsible must be held accountable and charged. I look forward to the result of the investigation where justice is required.”
