## **SUPERVISOR JURSIK APPLAUDS PROGRESS ON LAND SALES RESOLUTION**

*Supervisor Jursik notes successful compromise with County Executive's Office*

**Milwaukee** – Supervisor Patricia Jursik, Chairperson of the Economic and Community Development Committee, is pleased to have reached a compromise with the County Executive's office on creating a land sales resolution and ordinance. Supervisor Jursik issued the following statement:

“On a vote of 13 to 5, the Milwaukee County Board approved this new county ordinance, establishing a clear policy on land sales and arriving at compromise. The compromise makes it clear that the County Executive's office and economic development staff will conduct the hard work of negotiations for creating development agreements.

“Together, with the County Board setting the policy on real estate sales and with the County Executive's office doing the detailed work of negotiations, Milwaukee County is poised to move toward productive economic development.

“I would like to thank my colleagues and the County Executive. Our constituents expect us to work together in accomplishing Milwaukee County land sales. We have done that with this step.”
