

Due to recent internet browser updates, some users may have experienced technical issues with the Interactive Mapping Service Website. For best results, please use an internet browser with these requirements:

Minimum:

Internet Explorer 7

Mozilla Firefox 3

Recommended:

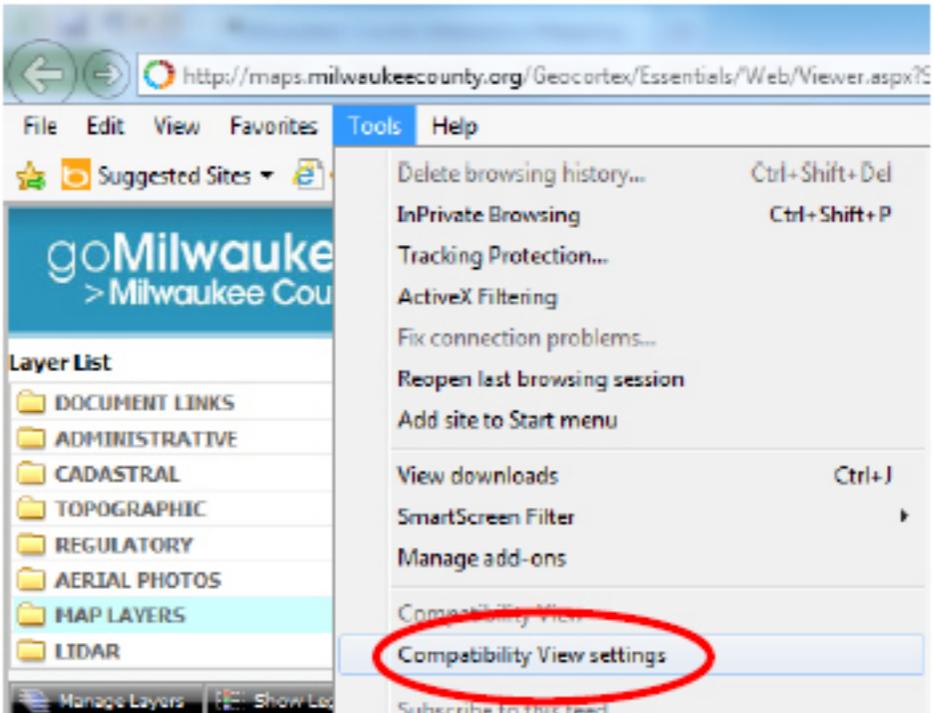

Internet Explorer 8 & 9

Mozilla Firefox 4

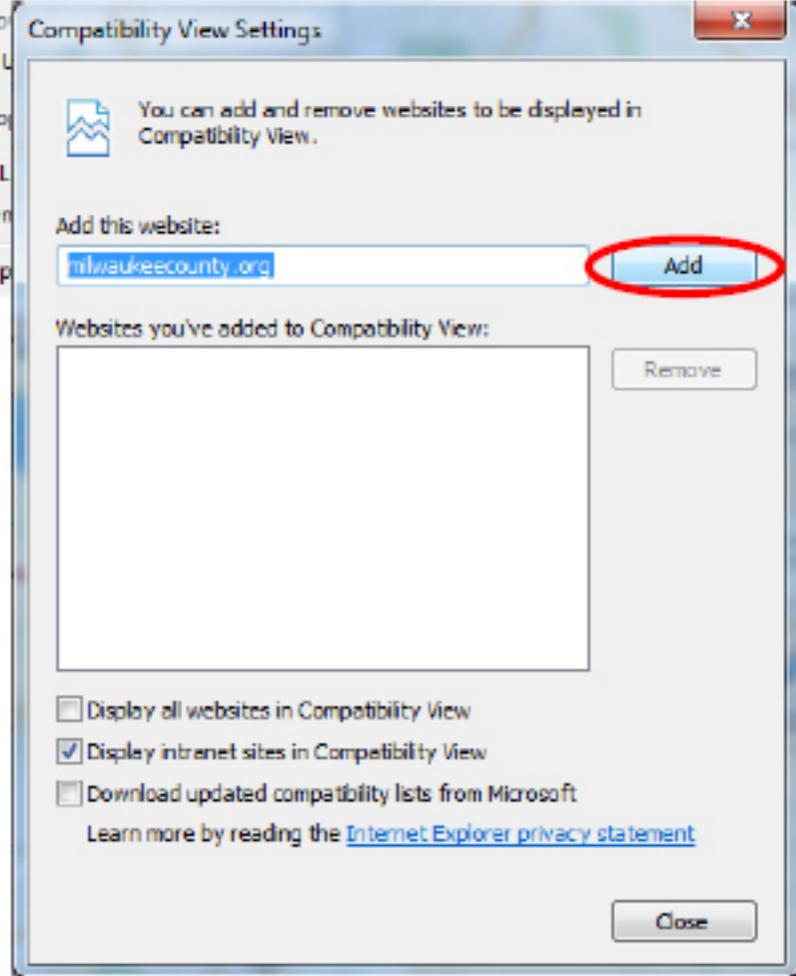

Using a different browser or version may cause unexpected errors, such as those outlined in the table below. Users who have upgraded to Internet Explorer 10, or who have it by default in Windows 8, are encouraged to use Compatibility View. The instructions to enable compatibility are in the box to the right.

Website Functions	Browser				Google Chrome
	Internet Explorer		Mozilla Firefox		
	7, 8 & 9	10	3 & 4	>4	
General Functionality		*			
Measure/Line/Polygon Drawing					
Pictometry Image Export					
	Explorer 8 & 9 are Recommended, or *10 in Compatibility View		Firefox 4 is Recommended		

How to set Compatibility View in Internet Explorer 10

While on the MCAMLIS site, click on the Internet Explorer 'Tools' menu. Select **Compatibility View Settings**

In the Compatibility View Settings window, 'milwaukeecounty.org' should already be in the Add this website: box. Click the 'Add' button. It will then be listed in the box below. Select the close button. The website will reload in compatibility mode.
