JANUARY 2014 Beginning early January 2014, Watertown Plank Road, under US 45, will be closed from Discovery Parkway to Innovation Drive. Watertown Plank Road, east of US 45 to 86th Street, will have traffic switched such that eastbound and westbound traffic will be utilizing the eastbound lanes. During construction, access to the Milwaukee County Behavioral Health Complex will be reconfigured as shown in the map above. All access to Milwaukee County EMS and Plank Road School will be from the recently completed frontage road. The frontage road can be accessed either from Discovery Parkway, if coming from the north (Discovery Parkway), or from the remaining middle driveway at the Behavioral Health Complex if coming from Watertown Plank Road. The Connell Street connection south of the Milwaukee Behavioral Health Complex is also available for motorists to use.
