

COMMUNITY LISTENING SESSIONS

Milwaukee County is reviewing its programs and practices to find ways to improve efficiency, save taxpayer dollars, eliminate disparities, and advance equity through the **Future State Project**.

During these Future State listening sessions, recommendations to change the County's services and organizational structure will be shared. These recommendations aim to guide our community towards becoming the healthiest county in Wisconsin.

You are invited to provide feedback on the recommendations and share your thoughts on how County departments and offices can better serve residents now and into the future.

Register To Attend At:
