Community Outreach Partnership for Empowerment (COPE)

The Community Outreach Partnership for Empowerment (COPE) was created in an effort to increase the collaboration of fellow partners providing various services (crisis intervention and stabilization, alcohol and drug services, peer specialist services, housing, etc.) with individuals in need in our community and to increase the influence of those with lived experience (or the experiences of their loved ones). This was done with the hope of creating meaningful change to our system of care in Milwaukee. COPE is committed to connecting with each person where he/she is at in order to support and empower him/her with sensitivity and dignity on the path towards recovery.

NOTE: Because resources change often, information can also be accessed at <http://county.milwaukee.gov/BehavioralHealthDivi7762/CrisisServices.htm> for the most current information.
