

# Redesigned With *You* in Mind

Milwaukee County Behavioral Health Services  
**Here for You. Close to Home.**

For the past decade, Milwaukee County Behavioral Health Services (BHS) has been on a journey, transforming behavioral health care and moving away from an inpatient and institutional model to community-based services that meet people right where they are.

The September 9, 2022 closure of the Milwaukee County Mental Health Complex ushers in the next milestone in the redesign of the behavioral health system. The redesign is part of BHS' commitment to ensure there is No Wrong Door for Milwaukee County residents to access services, with an emphasis on best practices including holistic and trauma-informed care, stigma reduction and racial equity.
