

EVERY VOICE MATTERS

BEHAVIORAL HEALTH SERVICES COMMUNITY CONVERSATIONS

Milwaukee County and key partners are hosting a series of Community Conversations to get input on behavioral health services in Milwaukee County. At each session, information will be shared regarding our progress in making services more accessible in our neighborhoods. Through intimate conversations and other ongoing efforts, we will gather the thoughts and ideas of our community on the future of behavioral health services in Milwaukee County.

Community Conversation participants:

- Milwaukee County Department of Health and Human Services Staff
- Law Enforcement Partners
- Community Members
- Mental Health Advocates
- Providers
- Consumers & Families
- Elected Officials

We will use what we learn to:

- Understand what is going well and what needs to be improved with behavioral health service access and delivery in Milwaukee County
- Become better informed of the behavioral health services that are the most important to you and our community
- Make decisions about the future of behavioral health services in Milwaukee County

We will share what we learn at a series of public report-out sessions and a summary report will be available online.
