Jeopardy Directions

Objective:

The object of this game is to learn about one's team and gather various information needed in the family's Plan of Care (POC) through the means of an interactive game.

Items needed:

- Game board
- List of questions for CC
- Post its
- Paper
- Pen
- A prize of some sort

How to win:

- Be the person with the highest score to receive a prize.
- ❖ Feel free to come up with your own questions or tweak the ones provided to fit the family's needs.

Instructions:

1. Set up the board game with the categories and points each question is worth so that the team can view it.
2. You may want to use post it notes to take down when a question has been answered altering team members that they cannot ask for those any more. *Please note that for most categories there is a question to ask the family and one to ask team members so two different colored post it notes may be helpful for those categories.
3. When it is their turn, each person will announce the category in which they would like to answer a question for and the amount of points they are going for.
4. The CC then reads of the appropriate question and the team member will answer.
5. Points are gained when an answer is provided for the correct question. ***If no answer is given or the person responds, "I don't know", they do not receive the points.**
6. The game ends when all questions are answered.
