

LUNCH AND LEARN: COMMUNITY RESPONSE ACROSS THE SPECTRUM OF PSYCHOSIS

YOU ARE INVITED TO LEARN MORE ABOUT WRAPAROUND MILWAUKEE'S COMMUNITY-BASED RESPONSE IN IDENTIFYING AND SUPPORTING YOUTH AND YOUNG ADULTS WHO MAY BE AT CLINICAL HIGH RISK FOR PSYCHOSIS (CHR-P). THESE INDIVIDUALS MAY BE INDIVIDUALS THAT WHILE THEY ARE WITH YOU, YOU HAVE A GLIMMER OF PSYCHOSIS, YOU SEE SOMETHING, BUT MAYBE NOT ENOUGH. YOU KNOW YOU WOULDN'T TYPICALLY TREAT PSYCHOSIS OR SCHIZOPHRENIA, BUT THERE IS SOMETHING NOT ADDING UP YET. WE WOULD LIKE TO HEAR ABOUT THESE INDIVIDUALS AND WANT TO GET INVOLVED WITH THEM EARLIER. THESE MIGHT BE INDIVIDUALS WITH DEPRESSION WITH PSYCHOTIC FEATURES OR OTHER DIAGNOSIS WITH PSYCHOTIC FEATURES. WE NEED YOU TO BE THE EYES AND EARS – TO ASK YOURSELF, IS THIS SOMETHING MORE? WE ARE HERE TO WEED THROUGH 12 TO GET ONE. WE ALL KNOW THAT THERE IS THE ILLNESS OF PSYCHOSIS AND THE INJURY OF PSYCHOSIS; WE CAN BE BENEFICIAL TO *PREVENTING AND* TREATING THE INJURY OF PSYCHOSIS AND ASSIST WITH THE HEALING PROCESS. THIS LUNCH AND LEARN IS FOR FOLKS WHO WORK IN THE FIELD, ARE EXPERIENCED AROUND PSYCHOSIS, BUT WANT TO LEARN MORE ABOUT APSS, ATTENUATED POSITIVE SYMPTOM SYNDROME.

PRESENTER: DR. STEVEN DYKSTRA, PH.D.

**WHEN: OCTOBER 13TH, 2022, & NOVEMBER 10TH, 2022
(PRESENTATION IS THE SAME BOTH DAYS)**
