

AMOP Committee Update Log

Updated 4/2/2021

In an effort to keep employees and the public informed regarding changes to the [Administrative Manual of Operating Procedures](#), the AMOP Committee will provide regular updates via this log on newly approved or updated procedures, removal of procedures, and public comments received. Approved procedures will be posted for public comment by both: (a) sending an electronic notification of the procedure using the County's E-Notify system, and (b) posting the procedure on the online [Administrative Manual of Operating Procedures](#). Meeting minutes for all AMOP Committee meetings are available on the [County Legislative Information Center \(CLIC\)](#).
