Project No.: **WC027601**

DEPARTMENT OF ADMINISTRATIVE SERVICES
Milwaukee County

October 2, 2025

To All Interested Consultants

Project: Investing in Justice: Courthouse Complex – Geotechnical and Environmental Services

Project No.: WC027601

Subject: ADDENDUM #3 TO REQUEST FOR PROPOSALS (R.F.P.)

Milwaukee County would like to clarify the scope of services in the Geotechnical and Environmental RFP regarding the interior borings. All interior borings, on Attachment O Boring Map, will be treated as potential additional services to be negotiated with the selected Consultant if determined necessary. Please see the updated Attachment O on Page 2 of this Addendum.

Section 1.3 of the RFP is hereby addended to read:

“The geotechnical consultants will be performing geotechnical services based on the borings highlighted in red on the Attachment O Boring Map. The interior borings will be treated as potential additional services, to be negotiated with the selected Consultant if determined necessary.”

The direction provided herein supersedes any response from Addendum 2 regarding whether interior versus exterior borings is included in the base scope and base scope pricing.

Respondents should complete the Attachment A Consultant Fee Proposal to price only the base scope of the exterior borings highlighted in red.

Respondents should email Peter Nilles at peter.nilles@milwaukeecountywi.gov and Patrick Flaherty at pflaherty@concord-cc.com with any questions.

Sincerely,

A handwritten signature in black ink that reads "Peter W. Nilles".

Peter Nilles
Director, Facilities Planning and Development
