

DEPARTMENT OF ADMINISTRATIVE SERVICES
Milwaukee County

TO: All Interested Consultants
SUBJECT: Addendum 3 - Climate Action 2050 Plan RFP
PROJECT NUMBER: WY062502
DATE: May 11, 2022

INTRODUCTION

This addendum (“Addendum 3”) is issued to further modify, explain or correct the *Request for Proposals - Milwaukee County Climate Action 2050 Plan*, dated April 22, 2022, and is hereby made part of the RFP.

Proposers must acknowledge receipt of Addendum 3 in their proposals, or the proposals may be rejected.

CLARIFICATION

(question received via email to sustainability@milwaukeecountywi.gov)

Q8: The scope indicates under Task 3, footnote #6 that the County has updated GHG emissions inventories and BAU forecasts for 2019 data but has not yet released them. Is this 2019 BAU forecast the County's first BAU forecast, or has the county conducted prior BAU emissions forecasts? If the County has conducted prior emissions forecasts, have these been published? Is there any more information about previous BAU emissions forecasts that can be shared?

As indicated in footnote 6 of the RFP (page 7):

During summer 2022, Milwaukee County will update its emissions inventory and BAU forecast to include data for 2019 or more recent operations. Previously, the County prepared inventories for 2005 and 2016-18, and forecast BAU emissions based on 2018 data. The County will share the new inventory and BAU forecast with the selected consultant by July 31, 2022.

The existing BAU forecast and emissions inventories are published in the [Milwaukee County Climate Action 2050 Planning Framework](#). Additional information about the 2016-18 emissions inventories is published in the [Emissions Inventory for 2016-18 Milwaukee County Operations](#).

The forecast and emissions inventories were prepared using [ICLEI ClearPath](#). This online tool will be made available at no cost to the selected consultant.

RELATED WORK BY OTHERS

The following information is hereby added to Section VII of the RFP:

At its May 10, 2022 Transportation, Public Works, and Transit Committee meeting, the Milwaukee County Board of Supervisors recommended [File No. 22-630](#) for adoption. Should this legislation be adopted by the County Board, it would allocate \$500,000 for a new capital project, WF021101 - Fleet Electrification Study, for the purpose of procuring a consultant to advise and guide Milwaukee County on how it play plan eventually to fully replace its fleet with electric vehicles; and hiring a temporary liaison to coordinate with the consultant as project manager.

The Fleet Electrification Study and other relevant activities and research may be on-going during the development of Milwaukee County's Climate Action 2050 Plan. Consultants should indicate in their proposals how they will consider and coordinate the results of these activities by into the overall plan effort.

Sincerely,

Gordie Bennett
Sustainability Director

Milwaukee County
Department of Administrative Services
Facilities Management Division
