LET'S REVIEW SOME CERTIFICATION BASICS

As you get certified or renew your certification, there are various methods of seeking business opportunities with Milwaukee County. We know that it can be challenging to be in the know of what services Milwaukee County needs. Registering your firm with as many of the resources below will allow you to stay on top of upcoming opportunities within the county.

Should I register with them all? Although not required, registering with as many of them will increase the chance of securing a professional service contract, county project or contract for supplies. County departments use various portals to post opportunities and it is not a one-stop-shop. We are working to find a solution to this! For now, please see the resources section below to find the links to the various portals.
