**Strategic Overview:** The Transportation Services Division provides planning, design, and construction management for capital projects on County Trunk Highways (CTH) and County-owned bridges, including traffic signals. Transportation Services Division consists of the following four (4) engineering areas:

- Highway Engineering provides planning, operation and design for Highway Capital Improvement Projects and Local Road Improvement Projects as required by state law.
- Bridge Engineering provides planning, operation, and design of rehabilitation or replacement of existing County-owned bridges. As mandated by state law, Bridge Engineering oversees the biennial bridge inspections of all County-owned bridges and administers the Local Bridge Program for all municipality-owned bridges in Milwaukee County.
- Traffic Engineering provides planning, design, and implementation of projects needed to maintain and improve the safety, operational efficiency, and functional integrity of the County's highway network, including the projects in the, Congestion Mitigation and Air Quality Program (CMAQ), and Highway Safety Improvement Program (HSIP).
- Construction Engineering is responsible for field inspection, construction management, and contract administration of highway, bridge, and traffic projects.

### **Strategic Implementation:**

2020 Position Actions:

- One position of Engineering Intern Student is created.
