Strategic Overview:

The Office of the Corporation Counsel serves as chief legal counsel to all Milwaukee County departments and elected officials.

Strategic Implementation:

OCC is a high functional law department that represents the County and all its agencies and departments on myriad complex subjects. OCC is developing and implementing a workflow management system to track all work (both litigation and otherwise) as well as work hours to produce metrics that will drive resource allocation and assist with managing budget targets, to implement client self-service tools, establish service legal agreements (SLAs) with client departments, and publish analytics to drive efficacy and efficiency. These metrics are meant as a source of determining our best use of talent and resources to provide the best client service.

The OCC's budget is predominately invested in personnel. Operational expenses have been reduced to the maximum. We are a high functioning, low-staff law department (currently a total of 26 FTE) that represents the County and all its agencies and departments on myriad of complex subjects. In lieu of providing market rate salaries, we offer cohesive culture, meaningful work, complex and changing work, advanced training and skill enhancement, as well as opportunities for equity-based work and community engagement.
