Question: I know I ask this whenever we have a counterbalanced walkie bid and the answer is typically yes, but I just want to make sure to follow all the correct steps – is our Toyota 6BWC15 model still an acceptable alternative for the Big Joe PDC-25-106? I have attached some spec sheets.

Answer: [yes, this is an approved equal](#)

Question: I'd like to submit the following for approved equal: Clark WSTX33. This unit meets all specifications in the bid. The one difference is lift height is 105". You had approved this small deviation during the previous bid.
