Supervisor Rolland Calls on Community to Help Locate Missing District 6 Resident

MILWAUKEE - Supervisor Shawn Rolland is encouraging members of the community to assist in the search for Bryan Adorno, a District 6 resident who has been reported missing.

According to Adorno's fiancée Maggie, he was last seen on Friday, August 14. His vehicle, a white 2026 Toyota Corolla, was subsequently located near Underwood Parkway in Wauwatosa.

A community search will take place at 5 p.m. tonight at Wil-O-Way Underwood, 10602 Underwood Parkway. Because portions of the search area are heavily wooded, participants are encouraged to dress appropriately for outdoor conditions and the terrain.

Adorno's family is also asking residents in the community to review any surveillance or doorbell-camera footage they may have from the evening of Friday, August 14, particularly in the areas near 73rd Street and Garfield Avenue and along Underwood Parkway. Any footage or information that could assist in locating Adorno may be important to the ongoing search.

"I am asking our community to come together and help Bryan's family during this incredibly difficult time," said Supervisor Shawn Rolland. "If you have the ability to participate in tonight's search, please join us. Even if you are unable to participate in the search, I encourage anyone who may have camera footage from the area that evening to come forward. Information that may seem insignificant could be helpful in bringing Bryan home."

Anyone with information regarding Adorno's whereabouts or potentially relevant surveillance or doorbell-camera footage is encouraged to contact the Wauwatosa Police Department.
