Heads up!!

CSOS login is changing November 23.

You will need a **myWisconsin ID** account and a **code** sent to you by text or email, or generated by an app. **Your current logon ID will no longer work after the evening of November 23**.

What you should do now

1. Update your contact information in CSOS so that it includes your current:
   - Email address
   - Text-capable phone number
   - Mailing address

2. Get a **myWisconsin ID** if you don't already have one.

   To get one, go to apps.wisconsin.gov and click "sign up" at the bottom of the screen.

Take a few minutes now...
so you're ready when the new login process begins
