## **Clerk Christenson Confirms Receipt of Grand Jury Subpoena Regarding Trump Investigation**

MILWAUKEE – County Clerk George Christenson received a subpoena which asks for communications with former president Donald Trump, his campaign, and several allies. In light of this, Clerk Christenson issued the following statement:

*“I can confirm that my office received a subpoena for the documents involving correspondence from Former President Trump, his campaign, and his aides. I am working with the Office of Corporation Counsel to provide a complete and prompt response to this request. There is speculation that the subpoena concerns the matters involving fake electors, as well as the January 6 insurrection. I am supportive of this investigation as it is important that the due process of law takes its course for the sake of our Nation and its democratic institutions.”*

Special Counsel Jack Smith has subpoenaed local officials in Arizona, Michigan and Wisconsin for any and all communications with Trump, his campaign and a long list of aides and allies.

Smith was named Special Counsel last month to oversee the January 6 Capitol attack case as well as the criminal probe of Trump’s possible mishandling of classified documents at his Florida home.
