MILWAUKEE COUNTY SENIOR DINING

Background

Primarily funded by Older Americans Act dollars, senior nutrition programs are designed to serve as gathering places for older adults (60+). There is tremendous value and opportunity in bringing people together to enjoy nutritious meals. Sharing food and engaging conversations with others is a powerful experience that encourages new connections, strengthens existing ones and ultimately improves our community.

Equally as beneficial can be the exposure to new information, awareness of relevant programs and attention to activities that promote health and well-being. While these popular services have been around for decades, excitement has been especially high around our award-winning Dine Out Restaurant partnership which adds convenience, flexibility and much needed diversity to the lineup.

We are committed to continuing these essential services while decreasing barriers to access, addressing gaps in service and introducing new & innovative solutions that keep us moving forward with satisfied customers.

WHO?

- Anyone 60+
- Spouse (of any Age)
- Dining Site Volunteer

- ⊘ No income limits

Meals on Wheels

We are committed to helping older adults live healthier, more nourished lives, in their own homes.

The Meals on Wheels program supports and promotes independent living for homebound older adults through the delivery of a nutritious meal.

A suggested contribution is appreciated to offset the cost of the program.

Could you, or someone you know, benefit from having meals delivered? Call the Aging & Disability Resource Center to inquire: (414) 289-6874.

To be eligible you must be:

- 60 or older
- A Milwaukee County resident
- Homebound
- Unable physically or cognitively to prepare your own meals

Request a Referral: (414) 289-6874

Healthy for Good™

Sleep Well

Do you feel drained of energy before you even leave the house? You're not alone. More than one in three adults don't get the recommended seven to nine hours of sleep each night — and that can take a toll on your body and mind.

Making some small changes in your daily habits could make a big difference in your overall health. Try these snooze-worthy tips and tricks with your family and friends for four weeks.

Week 1

Be active during the day to help reduce stress and sleep better.

- Add physical activity into your daily routine. Walking counts! It can relieve stress, boost brain function (including your memory and attention) and help you sleep better at night.
- Try mindfulness, meditation or deep breathing to manage stress.
- Try working out earlier in the day and doing some relaxing yoga in the evening if exercising too close to bedtime keeps you awake.

Week 2

Establish a nighttime routine including a bedtime alarm.

- Go to bed and wake up at about the same time each day to sleep better.
- Set a daily bedtime alarm, counting backwards seven to 10 hours from your ideal waking time.
- Choose sleep over getting one more thing done. Good sleep can help you be more productive and accomplish more during the day.

Week 3

Create a morning routine with a positive activity.

- Start your morning with a healthy activity such as a walk around the block, meditation, gratitude journaling or yoga. Looking forward to a few moments of "me time" could make it easier to get up.
- Break the snooze button habit. Sleeping past your alarm can make you groggier in the morning.
- Try habit chaining. Connect a new habit to something you do automatically every morning. For example, do a few yoga moves right after you brush your teeth.

Week 4

Wind down tech-free at bedtime.

- Charge your phone and other devices away from your bed.
- Try reading, listening to music or catching up on a podcast instead of scrolling and swiping into the night. Blue light from devices could be sabotaging your sleep cycle.
- Go low-tech. Try an old-school alarm clock and stash a pen and notepad by your bed so you don't reach for your phone when inspiration strikes.

If you've tried everything and still can't sleep well, you may have a sleep disorder. Talk to your doctor or health care professional.

Healthy for Good™

Duerme bien

¿Sientes que no tienes energía incluso antes de salir de tu casa? No eres el único. **Más de uno de cada tres adultos no duerme de 7 a 9 horas, como se recomienda, cada noche**, lo que puede afectar el cuerpo y la mente.

Realizar algunos pequeños cambios en tus hábitos diarios puede marcar una gran diferencia en tu salud general. Durante cuatro semanas, prueba con tu familia y amigos estos trucos y consejos que sí vale la pena repetir.

Semana 1

Mantente activo durante el día para disminuir el estrés y dormir mejor.

- Incorpora actividad física en tu rutina diaria. ¡Caminar sí cuenta! Puede aliviar el estrés, estimular la función cerebral (incluida la memoria y la atención) y ayudarte a dormir mejor durante la noche.
- Prueba la conciencia plena, la meditación o la respiración profunda para lidiar con el estrés.
- Hacer ejercicio muy cerca de la hora de dormir te mantiene despierto; por ende, es mejor si intentas entrenar más temprano durante el día y practicas yoga de relajación en la tarde.

Semana 3

Crea una rutina matutina con una actividad positiva.

- Comienza tu mañana con una actividad saludable como un paseo corto, una meditación, un diario de gratitud o una sesión de yoga. Esperar con ansias el poder tener unos momentos de "tiempo para mí" podría hacer que sea más fácil levantarse.
- Deja el hábito de posponer la alarma. Seguir durmiendo luego de que suena la alarma puede hacerte más somnoliento durante la mañana.
- Intenta enlazar tus hábitos. Conecta el nuevo hábito con algo que haces automáticamente cada mañana. Por ejemplo, haz algunas posturas de yoga justo después de lavarte los dientes.

Semana 2

Establece una rutina nocturna, con una alarma para acostarte incluida.

- Acuéstate y despiértate a la misma hora todos los días para dormir mejor.
- Pon una alarma diaria para irte a la cama. Cuenta hacia atrás entre 7 y 10 horas (según el tiempo de descanso que necesites) desde tu hora ideal para despertarte.
- Elige dormir en vez de hacer una cosa más. Un sueño reparador puede ayudarte a ser más productivo y lograr más durante el día.

Semana 4

Desconéctate de la tecnología a la hora de dormir.

- Carga tu teléfono y otros dispositivos lejos de tu cama.
- Intenta leer, escuchar música o ponerte al día con un podcast en lugar de "desplazarte" y "deslizarte" por la pantalla hacia el desvelo. El brillo de la luz azul podría estar saboteando tu ciclo de sueño.
- Cámbiate a una tecnología más básica. Prueba con un reloj despertador al estilo antiguo y mantén un lápiz y una libreta junto a tu cama para que no tomes tu teléfono cuando te llegue la inspiración.

Si has probado todo y aún no puedes dormir bien, es posible que tengas un trastorno del sueño. Habla con tu médico o profesional de la salud.
