

Turndown Checklist

ALS or BLS evaluation followed by BLS transport

Turndown Checklist

- ✓ ***Complete vital signs documented***
- ✓ ***No current abnormal vitals with symptoms of distress***
- ✓ ***ALS/PFR evaluation performed if indicated***
- ✓ ***ALS interventions/monitoring/transport not required***
- ✓ ***Additional vitals documented with no patient deterioration***
- ✓ ***Verbal handoff to BLS transport unit performed***
- ✓ ***BLS transport unit accepted patient for transport***
- ✓ ***Transport agency/number documented***
- ✓ ***Exceptions justified in narrative documentation***

* ***Note: Provider judgment encourages ALS transport for patients who do not meet above criteria but for whom ALS transport may provide a clear benefit***

Complete criteria can be found in the following Operational Policy:

Paramedic Evaluation, Transport, Upgrade, Turndown OP
