Subject: **Virtual Public Involvement Meeting**
Project ID 2575-03-00
Mill Road Bridge Over Oak Creek B-40-0936
Bridge Rehabilitation Deck Replacement
Milwaukee County

Dear Property Owner:

Milwaukee County Department of Transportation (MCDOT) is holding a Virtual Public Involvement Meeting for the proposed improvements at the Mill Road Bridge over Oak Creek in the City of South Milwaukee. As a precaution against COVID-19, MCDOT is changing the format of the Public Involvement Meeting. Rather than meeting in person, we are providing project information in this letter and are requesting public input via mail, email, or phone. This project information can also be obtained on MCDOT's website –

<https://county.milwaukee.gov/EN/Department-of-Transportation/Transportation-Services/Public-Involvement-Meetings>.

The purpose of the meeting is to provide information on the proposed improvements, to obtain input that will assist the department in further development and refinement of the project, and to provide the public involvement documents for your review. A PowerPoint presentation and comment sheet are attached.

The Mill Road bridge improvements are being proposed to address bridge deterioration. The project includes the replacement of the deteriorating pavement riding surface, concrete curb and gutter, and sidewalk, and storm drainpipe maintenance or repairs. The bridge parapet will remain in place and the metal railing that sits atop the parapet will be painted. The concrete bridge arch and parapets will receive concrete surface repair, crack filling, and spot repair of the mortar and stone facade. The split rail fence on the west side of the bridge will also be replaced. This is a historical bridge and archaeological survey will be conducted to assess possible impacts. Evaluation of parkway impacts is also required, due to the fact that the bridge and adjacent dam are both located within the Oak Creek Parkway, which is listed on the National Register. Construction of the project is currently anticipated in 2022.

We look forward to your participation in this meeting. Please forward your comments to me by **July 31, 2020**. If you have any questions about the project improvements, please contact me at andrea.weddle-henning@milwaukeecountywi.gov and (414) 257-5934, or Mike McCarthy at MMcCarthy@emcsinc.com and (414) 347-1607 to discuss this project further.

Sincerely,

Andrea J. Weddle-Henning

Director of Transportation Engineering
