Bridge Rehabilitation
Milwaukee County

Dear Resident of: «*Parcel Address*»

Milwaukee County Department of Transportation (MCDOT) is holding a Virtual Public Involvement Meeting for the proposed improvements at the 76th Street (NB) and (SB) Bridges over STH 36 in the City of Franklin. As a precaution against COVID-19, MCDOT is changing the format of the Public Involvement Meeting. Rather than meeting in person, we are providing project information in this letter and are requesting public input via mail, email, or phone. This project information can also be obtained on MCDOT's website – <https://county.milwaukee.gov/EN/Department-of-Transportation/Transportation-Services/Public-Involvement-Meetings>.

The purpose of the meeting is to provide information on the proposed improvements, to obtain input that will assist the department in further development and refinement of the project, and to provide the public involvement documents for your review. A PowerPoint summary and comment sheet are attached.

The S 76th Street (NB) and (SB) bridge improvements are being proposed to address bridge deteriorations. Rehabilitation work will include bridge deck overlay, expansion joint replacement, approach slab replacement, steel girder painting, and median modifications. The median modifications will increase the shoulder widths on the bridge, as well as turning lane capacity for adjacent Loomis Road on ramps. Construction of both projects is scheduled for 2022.

We look forward to your participation in this meeting. Please forward your comments to me by **November 26, 2020**. If you have any questions about the project improvements, please contact me at andrea.weddle-henning@milwaukeecountywi.gov and (414) 257-5934, or Jason Sadowski at Jason.Sadowski@mbakerintl.com and (414) 751-9986 to discuss this project further.

Sincerely,

Andrea J. Weddle-Henning

Director of Transportation Engineering
